## What's up

My name is **Tony Foster**. I am a **Creative Director**. And I love what I do.

I'm a **problem solver** by nature but a **dreamer** at heart. To be both a dreamer and a solver I have to think **strategically**, but **creatively** in all aspects of my work. I have to be **inherently different**, but understand how both my clients and my team **think**. In that way, I can ensure that each project gets the **best effort** from my team and has the **best outcome** for the client.

Whether the challenge is to dream big and **inspire the team** to 'WOW' a client or solve the client's **unsolvable problem** through streamlining internal collaboration, I have the skills and experience to meet that challenge.
